C-3D Catalog

The **C-3D Catalog** resource offerings make it exciting to learn science. This catalog features the largest library for STEM education in 3D, Augmented and Virtual Reality, available to schools and partners in publishing and e-learning.

Our scientifically verified 3D content blends cutting-edge technology and is simple to use. Extensive visual libraries with 1,500 scientifically verified 3D models provide engaging science curriculum for elementary schools and high schools.

"(The C-3D Catalog) has contributed a lot to my professional development as a teacher and to the personal growth of my vocational school students."

**—Eva Toth
English teacher**
